Tax and Delivery Not Included

Meet Doosan's NEW HPT, our durable 5,500 lb capacity unit developed to meet your warehousing needs. The HPT28 features:

- Totally enclosed bearings that guard against failure from dust and prolongs service life;
- A steel drawbar with protected handle for extra safety and strength;
- Pivot mounted large polyurethane steer wheels to ensure stability on uneven surfaces;
- 202° steer handle arc enables easy maneuvering of pallet truck in confined areas;
- Large polyurethane wheels for improved stability and allows for quiet operation.
